

# Custom Built Safe-Change Units for HEPA , Carbon, HEPA/Carbon & NBC Air Filtration

Specifically designed and manufactured by EMCEL Filters for the Chemical, Pharmaceutical, Medical & Defence Industries, where critical air filtration of hazardous, possibly **NBC / TIC** contaminants, is required.

EMCEL Filters Ltd offers Project Engineers and Consultants the complete design service from initial concept, to CAD drawings and to final production ...**all completed in-house.**

We manufacture air filtration units for major Pharmaceutical companies and Government Departments, with caseworks in a variety of materials. All filtration units are supplied complete with **our own** HEPA, Carbon, **NBC** or **TIC** filter elements, plus spares as required.
