

# CUSTOM DESIGNED FILTER HOUSINGS

Manufactured by EMCEL to suit a wide range of applications

Flexibility in design is a major issue for contractors, consultants and end users of air filtration systems. Competitively priced, CAD/ Inventor designed housings can be tailored by EMCEL to meet customer requirements. Housing design variables include:

### Materials

Stainless or Painted Mild Steel, Aluminium, Polypropylene, GRP and others

### Application:

In-Line, Intake/Exhaust Systems, Mobile Units, Tank Breathers

### Connections

Flanges (Internal or External), Spigots, Clamp Unions

### Sizes

To suit application, to include bespoke or standard sized elements

### Facilities

Safe Change Systems Available: Bag In, Bag Out; Push Through

### Gauges

Magnehelic, Photohelic, Pressure Sensors

The above options are available for all filter efficiencies, from low grade coarse filter, through to HEPA filtration and alternatively carbon filters for the removal of odours, vapours and gases.
